

## **ELEGANT ABSTRACT**

flush-fitting minimalist design

- > Glazing up to 48 mm for use with warm glazing units
- > Three perimeter gaskets for maximum thermal insulation and watertightness
- > 6-chamber technology – excellent thermal insulation up to  $U_f = 0.93 \text{ W}/(\text{m}^2\text{K})$
- > Wide range of surface finishes – smooth, wood-like, matt and metallic
- > Bonded glass as standard

**Technical specifications****Elegant Abstract**

Installation depth	76 mm
Possible glazing width	up to 48 mm
Glass bonding	as standard
No of gaskets	3
Hardware	Roto Komfort; Roto Multi; Roto Designo
$U_f$ of frame/sash assembly	0,93 W/(m <sup>2</sup> K)*, 1,1 W/(m <sup>2</sup> K)**

\* Value determined by the Hot Box method, with steel reinforcement in the frame

\*\* Calculation according to ISO 10077-2 with 36 m filling material

## Colours

The **Elegant Abstract** flush-fitting windows are the unique design of slim and simple forms and excellent finishing of details. Equipped with high-quality user-friendly components, they meet the highest requirements in terms of size and thermal and acoustic insulation.
