

## MASTERLINE 8

countless design possibilities

- > Possibility to use glazed panels up to 68 mm thick
- > Possibility to use leaves up to 2800 mm high
- > Thermal insulation  $U_f = St. 1.9 / HI 1.6 / HI+1.2 W/(m^2K)$
- > Rebate up to 27 mm high

**Technical specifications****MasterLine 8**

Installation depth	87 mm
Possible glazing width	from 6 mm
Maximum sash height	2800 mm
Hardware	Siegenia; Fapim; Sobinco
Thermal insulation	$U_f = St. 1.9 / HI 1.6 / HI+1.2 W/(m^2K)$

## Colours

The **MasterLine 8** is a unique window system that combines countless design possibilities with best-in-class technical parameters. This new generation of window systems reflects the current architectural trends, allowing maximum daylight while maintaining excellent thermal insulation parameters.
