

LUMAXX

More light

- › Installation depth 82,5 mm
- › Glazing up to 48 mm, allowing for the use of energy-efficient glass units
- › Optional STV technology for bonding glass panes
- › Three perimeter seals ensuring maximum thermal and acoustic insulation
- › Six-chamber technology
- › Wide range of surface finishes – smooth, wood grain structure, matt and metallic

Technical characteristics	Lumaxx
Number of chambers	6
Installation depth	82,5 mm
Glass unit thickness	up to 48 mm
STV glass bonding	standard
Number of seals	3
Fittings	Roto Komfort; Roto Multi; Roto Designo
Thermal transmittance coefficient	0,79 W/(m²K)*

*Value provided for a reference window 1230x1480 with glazing Ug = 0,5

LUMAXX is a modern window solution that stands out for its exceptionally slender profiles which are much narrower than traditional constructions. Thanks to innovative technology in LUMAXX, the low frame and sash profile allows for a slim appearance of the window, at the same time ensuring maximum natural light intake and excellent thermal insulation parameters.
